AMIA 2011 Austin !

What a great conference last week in Austin ! we were almost overwhelmed by the enthusiastic reception to our new project for *DC Comics/Warner Bros* presented at "the vendor café".

**We designed a unique and state of the art DC comics box for proper storage and safe environment.**

Compared to cardboard polypropylene will keep its physical structure for decades. Our **design allows ventilation**, gives a **strong physical protection** and increases stability.

#### BENEFITS :

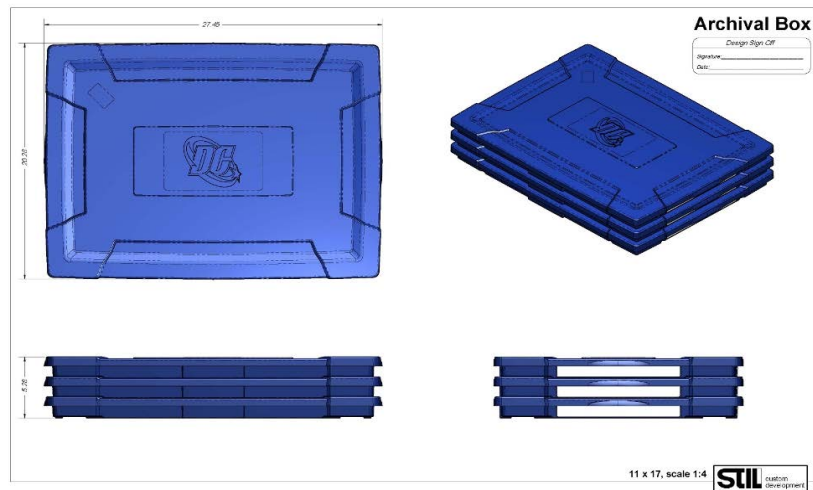

- Made of inert polypropylene
- Designed to **insure ventilation**, stabilizes the excess humidity
- **Protects from water and dust**, they cannot be water soaked
- Stackable, **weight support up to 25lb**
- Resilient and sturdy
- Inside dimensions provide **enough space for large sheet of acetate and film.**

Standard color: Blue

Also available in black, red, yellow, gray or clear (transparent)
